

ABOUT SUPERLAYER

Superlayer is a venture studio led by multi-exit founders with **deep Web3 expertise**, partnering with top-tier domain experts to co-found the next generation of consumer web3 projects. We do this by applying **zero-to-1 mastery** that comes from prior entrepreneurial success, grounded optimism, and a deep bench of builders supporting startups at every level.

In a time when legacy platforms extract value from users by turning them into products, we're here to put ownership of the Internet back into the hands of the people who use it. We're using the **community-first technology of Web3** to create a more equitable way for people and businesses to interact. We are here to provide all the benefits of Web3 to a new generation of users by eliminating barriers and **making it easier than ever** for everyone to take advantage of everything that blockchain and crypto technology have to offer.
